Songs with somewhere in them.

Commercial pop and R&B, written cinematically — hooks up front, arrangement underneath. What I'm looking for is a record to build: an artist project or a picture, with a publisher or label behind it.

THE RECORD

HEIRESS

A complete girl-group record in today's commercial pop lane, written and produced end to end — five songs, a full world built before anyone was cast. No act attached, which is the opportunity.
